

Medical Doctors and Practices

This quick reference tool is designed to anticipate the basic services you may require soon after arriving in Maadi. These are some of the health care providers that other expats use but it is **not** an exclusive recommendation of these providers or a complete list. It is a place to start. Once you are settled we encourage you to ask friends for recommendations and look out for online reviews by other expats at www.livinginegypt.com and ask at the CSA front desk for a more comprehensive list of providers.
